- built area: 1.388 m²
- cost: 2.098.198 €
- location: santiago rusiñol street
montmeló, barcelona

The project gives to the old slaughterhouse the prominence within the new building, turning it into the door and the joint of the new equipment, organizing the exterior and interior connection to the main areas of the program. The new building is organized around a courtyard that integrates the existing trees and that becomes a closable and appropriate space for the use of the library, and that provides light, visuals and ventilation to the interior spaces.
